

# Goscor Lift Truck ISO 9001: 2008 Certified

GOSCOR LIFT Truck Company (GLTC) has been ISO 9001:2008 certified and according to GLTC MD, Darryl Shafto, this is an important confirmation of the company's high levels of service, efficiency and product quality. "It's all very well believing

that the way you run your business is excellent, but the fact is that until this has been objectively tested against global best practice you cannot be sure that there are not things missing from your strategy and implementation," says Shafto. "Having been certified after being audited and evaluated by a renowned, international certification authority according to the prestigious ISO 9001:2008 standard, we now know that our belief in our own quality is more than justified."

The ISO 9001:2008 standard has been in place for over a decade and is used by both customers and companies as a method of controlling their quality. The standard provides a framework to manage one's business and to ensure a philosophy of continuous improvement in all aspects of the business.

Shafto says that the entire company nationwide pulled together to make the certification happen: "The fact, though, is that this company works hard as a cohesive unit all the time. It's not that we had to do things differently to achieve the ISO recognition, but rather that this recognition reflects the way Goscor Lift Truck conducts its business 24/7." •

**Goscor Lift Truck Company has been ISO 9001:2008 certified - Darryl Shafto, Goscor Lift Truck Company MD, and Heather Morgan, ISO Co-ordinator, mark the occasion.**
